

### Remarks

Applicant has amended claims 6 and 14 to clarify the concepts claimed therein. For at least the reasons given below, Applicant submits that all of the currently pending claims, claims 2-10 and 12-17 are allowable.

### Section 102 Rejections

The Examiner rejects claims 2-7, 10, and 12-15 under 35 U.S.C. § 102(b) as being anticipated by U.S. Patent No. 2,915,087 issued to Kruschik ("*Kruschik*"). Office Action pg. 2. The Examiner also rejects claims 6, 8-9, 14 and 16-17 under 35 U.S.C. § 102(b) as being anticipated by U.S. Patent No. 817,153 issued to Barr ("*Barr*"). Office Action pg. 2.

To anticipate a claim under § 102, a reference must teach each and every limitation of the claim. M.P.E.P. § 2131. Furthermore, the elements in the reference must be arranged as specified in the claim. *Id.* *Kruschik*, however, fails to teach or suggest at least one limitation in each of claims 2-7, 10, and 12-15. Additionally, *Barr* fails to teach or suggest at least one limitation in each of claims 6, 8-9, 14 and 16-17. Thus, the references do not anticipate these claims.

Applicant has amended the independent claims 6 and 14 to recite the limitation that "all of the fluid ports direct fluid flow toward the second fluid passage." Nowhere, however, does either *Kruschik* or *Barr* teach or suggest all of the fluid ports in the throttling cage positioned to direct fluid flow toward the valve outlet.

Because neither *Kruschik* nor *Barr* teaches or suggests all of the limitations of claims 6 and 14, neither can anticipate it. Applicant, therefore, respectfully requests the Examiner to withdraw the § 102 rejection thereof.

Claims 2-5, 8-10, 12-14 and 15-17 depend either directly or indirectly from either independent claim 6 or independent claim 14 and, hence, contain all of their respective limitations. Applicant respectfully requests that the Examiner withdraw the rejection of these claims.
